THE NEWS FROM ALL THE WORLD

CONGRESSIONAL.

On the 25th the senate passed the Philippine tariff bill by a vote of 46 to 26 after eight hours of stormy debate, during which Wellington called McComas a liar. The house passed a bill to divide Texas into four judicial districts, and then took up the diplomatic and consular appropriation bill, which carries an appropriation of \$1,521,673, an increase of \$2,500 over last year. It was made the vehicle for speeches on trusts, coinage and other irrelevant matters.

A bill was introduced in the senate on the 25th by Senator Mason (Ill.) to establish a department of physical culture, the head of the new department to have a seat in the cabinet. Senator Frye, president pro tempore, ordered the names of Senators Tillman and McLaurin restored to the roll, but this action does not give them the right to vote until the senate has passed upon the case. The house passed the diplomatic and consular appropriation bill. It was the fifth of the regular annual supply measures to be sent to the senate at this session.

In the senate on the 25th discussion of the punishment to be given Senators Tillman and McLaurin occupied the time, the leaders disagreeing on whether suspension or expulsion should be ordered. The house sent the Philippine tariff bill to conference, nonconcurring in all the senate amendments.

Consent was given in the senate on the 25th that Senator Tillman be recognized on the 26th to state his question of personal privilege. The subcommittee of the committee on elections decided against expulsion of the South Carolina senators, but they are to be censured. Adjourned at noon to attend McKinley memorial services in the hall of the house. No business was transacted in the house on account of memorial services.

A FINE DAIRY COUNTRY.

The land hunger manifest for several years acutely is more intense now than ever. More people realize that if they want a farm of their own they must get it now, before the cheap farm lands are all gone.

More settlers are going into Northern Wisconsin this spring than at any previous time. People who have gone there a few years ago and have become independent have proved this an ideal country for a man of small means to get a start, no less than for the man with money and farming experience to make an investment.

Prof. W. A. Henry, Dean of the College of Agriculture, in an article on the Dairy Industry of Northern Wisconsin, says: "After careful study of all the conditions prevailing in Northern Wisconsin, the writer is firmly impressed with the belief that this will become one of the great dairy regions of America. First of all there is that prime requisite for fine butter and cheese, namely, an ample supply of pure cold water everywhere accessible. Second, an abundance of wholesome stock foods. In summer time the cattle of Northern Wisconsin will find in its pastures the finest of grasses and clovers (red and white clovers flourish), and timothy and blue grass pastures are as prevalent and productive as anywhere further south."

If you want to know more about this country you can learn from the booklets which the "50c" Line has prepared. Write to D. W. Casseday, Land and Industrial Agent, "50c" Line, Minneapolis. Tell him you want to know about the dairy country in Northern Wisconsin.

Mrs. L. A. Harris, a Prominent Member of a Chicago Woman's Political Club, tells how Ovarian Troubles may be Cured without a Surgical Operation. She says:

"Doctors have a perfect craze for operations. The minute there is any trouble, nothing but an operation will do them; one hundred dollars and costs, and included in the costs are pain, and agony, and often death.

"I suffered for eight years with ovarian troubles; spent hundreds of dollars for relief, until two doctors agreed that an operation was my only chance of life. My sister had been using Lydia E. Pinkham's Vegetable Compound for her troubles, and been cured, and she strongly urged me to let the doctors go and try the Compound. I did so as a last resort; used it faithfully with the Sanative Wash for five months, and was rejoiced to find that my troubles were over and my health restored. If women would only try Lydia E. Pinkham's Vegetable Compound first, fewer surgical operations would occur."

—MRS. L. A. HARRIS, 278 East 81st St., Chicago, Ill.

WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maids or wives or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative—is Syrup of Figs. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant, aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Many of the ills from which women suffer are of a transient nature and do not come from any organic trouble and it is pleasant to know that they yield so promptly to the beneficial effects of Syrup of Figs, but when anything more than a laxative is needed it is best to consult the family physician and to avoid the old-time cathartics and loudly advertised nostrums of the present day. When one needs only to remove the strain, the torpor, the congestion, or similar ills, which attend upon a constipated condition of the system, use the true and gentle remedy—Syrup of Figs—and enjoy freedom from the depression, the aches and pains, colds and headaches, which are due to inactivity of the bowels.

Only those who buy the genuine Syrup of Figs can hope to get its beneficial effects and as a guarantee of the excellence of the remedy the full name of the company—California Fig Syrup Co.—is printed on the front of every package and without it any preparation offered as Syrup of Figs is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere at 50 cents per bottle.
